**BRIGHT STAR**

Long-lasting high & peak-performance batteries provide dependable power for everyday use and emergency situations.

### Device Compatible:

Premium KBSPower Solutions batteries, chemically designed for optimal performance, provide long run times that meet or exceed the large US commercial brands. Our batteries are ideally compatible for use in gaming controllers, toys, flashlights, headlamps, clocks, cameras and much more!

### Designed to Last:

10-year leak-free shelf life – All KBS Power Solutions batteries have advanced cell designs that offer the highest level of leak prevention, these batteries have been independently tested and verified to meet intrinsic safety requirements which specifically evaluates leakage at high temperatures.

### Available in 24 Packs

### About us

Koehler Brightstar is a Marmon/Berkshire Hathaway company that develops portable lighting and battery power solutions. KBS Innovations has three recognizable brand names: Koehler (mining/construction products), Bright Star (Industrial and safety lights), and KBS Power Solutions (lithium ion and alkaline batteries).

Innovation is key to our company mission for each of our brands. We focus our innovation on providing a well-designed solution that offers our customers best-in-class products while still offering a value compared to the competition. KBS Innovations is a US company located in Hanover Township, PA, (near Wilkes-Barre, PA), where we manufacture most of our products in our 75,000 sq. ft. facility. Here in Pennsylvania, we design, develop, test, manufacture, and warehouse our products through our ISO9001 certified quality system.

We are proud to be able to design and manufacture our products here in the USA and our Koehler and Bright Star brands have been doing just that for over 110 years.
